

Pointers

```
#include <iostream>
```

```
using namespace std;
```

```
int main() {
```

```
    int arr[3] = {10, 20, 30};
```

```
    int *ptr = arr;
```

```
    cout << "Pointer Basics:" << endl;
```

```
    cout << *ptr << endl;
```

```
    cout << "Pointer Arithmetic:" << endl;
```

```
    cout << *(ptr + 1) << endl;
```

```
    cout << *(ptr + 2) << endl;
```

```
    return 0;
```

```
}
```
